

HOW DO YOU FIND NEW USES FOR A MATERIAL THAT IS ALREADY SO FLEXIBLE AND UBIQUITOUS? HOW DO YOU GO BEYOND THE INFINITE POTENTIALS IT ALREADY POSSESSES?

THAT IS THE CHALLENGE WE ARE FACED WITH WHEN DEALING WITH TROLDTEKT ACOUSTIC PANELS. RATHER THAN SPECULATING ON NEW FORMAL ARRANGEMENTS OF THE PANELS, WE HAVE CHOSEN TO FOCUS ON THE INTERNAL COMPOSITION OF THE PANEL.

WHAT IF WE COULD INFUSE NEW BIOLOGICAL OR SYNTHETIC MATERIALS INTO THE PANELS DURING THE MANUFACTURING PROCESS, THUS CREATING NEW QUALITIES THAT COULD THEN BE LEVERAGED WHEN USED IN THE INFINITE FORMAL ARRANGEMENTS THAT TROLDTEKT PANELS OFFER?

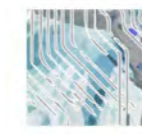

POROSITY EXPLORATION

BY VARYING THE POROSITY OF THE PANELS, DIFFERENT BIOLOGICAL AND SYNTHETIC MATERIALS CAN BE ENHANCED - E.G. HIGHER POROSITY FOR LESS RESILIENT PLANTS.

I AM ONLY A WALL
 IF THEY LISTEN TO ME, ONLY AN ECHO WILL RESPOND
 IF THEY SMELL ME, THE CALLOUS SCENT WILL ONLY LATCH ON
 IF ONLY WALLS COULD TALK, I WOULD RELEASE MY FIRST BREATH,
 AND LIFT THE BURDEN OF THEIR MUTED DEATH
 FOR EVERY BLEMISH A SCENE UNFOLDS,
 BUT SMOTHERED IN LUST PAINT BECOMES A STORY UNTOLD
 I DEFINE BOUNDARIES BUT DREAM BOUNDLESSNESS
 IN HOPES TO SHINE LIGHT ON THEIR OBLIVIOUS CONSCIOUSNESS
 FEED ME THE NUTRIENTS THAT I DESERVED,
 IN HOPES TO BREAK NERVE THAT WAS ONCE RESERVED
 IGNORE WHAT THEY SAY ABOUT WALLS AND DOORS,
 FOR I WANT TO EXPLORE THE SHORE THAT HAD ONCE BEEN PRESERVED
 ALLOW MY PORE TO SPORE MORE THAN EVER BEFORE
 FOR I WAS ONLY A WALL, NEVERMORE.
