

Troldekt Award 2016
Acoustic Pavilion
Sheet No 1

Concept

The pavilion acoustics, an excuse for a new definition of urban space, By changing the concept and nature of acoustic material. The pavilion wants to break the boundaries of Function. Create a quiet space in the bustling city of today is a new function of this material. The space that we can rest, talk, read book and etc.
(The pavilion design was inspired by traditional Iranian architecture)
